Poisson Regression on WTO2 with robust standard errors adjusted for clustering on country

Poisson Regression on WTO2 with robust standard errors adjusted for clustering on country

Regression Results: Trade share as a percentage of GDP, average 1980–95

Summary Statistics: Globalization through trade

Economic growth and human development performance: Asia between 1970 and 1995

Education priority ratios, 1980's to 1995

Total public expenditure on health

Gini coefficients, 1960–1995

Income levels and demographic structure of major country groups

Main human development indexes, ranking and income distribution, major country groups

Indicators of education by major groups of countries

Indicators of health and healthcare by major groups of countries

Arab countries, Israel and Morocco

Israel: Indicators of demography, education and health by population groups

Income levels and demographic structure of major country groups

Main human development indexes and ranking and income distribution, country groups

Indicators of education by groups of countries

Indicators of health and healthcare by groups of countries

Classification of countries into groups

Economic growth, 1985–2000

Unemployment rate in Tanzania, 2001

Indian and Chinese communities in South and Southeast Asia

Asylum seekers in 1989–98

Introduction of state reforms in selected EU candidate countries

Public administration evaluations

Government effectiveness and control of corruption
