

# LIST OF FIGURES AND TABLES

---

## LIST OF FIGURES

---

- Figure 1. The role of education in macroeconomic growth and development
- Figure 2. Returns to Cognitive Skills, International Adult Literacy Survey
- Figure 3. Returns to School Attainment, International Adult Literacy Survey
- Figure 4. The exogenous factors of learning and training
- Figure 5. eLearning functional model
- Figure 6. Growth of GDP in years (1992–2006)
- Figure 7. Type of Internet connection used by enterprises in the year 2004
- Figure 8. The percentage of companies using computers and having Internet access in the years 2004, 2005 and 2006
- Figure 9. Percentage of companies having Internet access in 2004, 2005 and 2006 according to activity
- Figure 10. Percentage of schools with broadband Internet access in Europe 2006
- Figure 11. Percentage of schools using computers, Internet connection and broadband Internet access according to school type in Poland (2006)
- Figure 12. The education system in Poland (as for the school year 2004/05)
- Figure 13. Participation of adults in lifelong learning\* (2005)
- Figure 14. Enterprises using the Internet for training and education by activity in 2005 and 2006 (percentage of each group)
- Figure 15. Activities carried out by computer users in the age 16–74 in 2004–2006 (percentage in the last 12 months)

- Figure 16. Most popular ways of developing digital skills in the age group of 16–74 in Poland, 2006
- Figure 17. The current topology of the PIONIER network
- Figure 18. Percentage of schools having broadband Internet access in 2006
- Figure 19. Number of Computers per 100 pupils in European schools 2006
- Figure 20. The Access-Competence-Motivation Model
- Figure 21. ICT Readiness of Teachers in Poland (2006)
- Figure 22. Percentage of teachers who have used computers in class in the last 12 months (2006)
- Figure 23. Lifelong learners and non-learners amongst on-liners and off-liners - country comparison (in percentages of the total 18+ population)

## LIST OF TABLES

---

- Table 1. Traditional learning versus eLearning
- Table 2. Poland – selected indicators
- Table 3. The total IT market in Poland 2002–2006 (in billions of EUR and PLN)
- Table 4. Population changes in thousands in 2000–2005
- Table 5. Selected ICT development indicators in 2006 in Poland, EU10 and EU15
- Table 6. Households equipped with a personal computer by location, income and composition (%)
- Table 7. Selected education indicators in 1995–2007 (number of schools)
- Table 8. Higher education institutions by type and the number of students in 2004/05 and 2006/07
- Table 9. Teachers and instructors in schools in 1995–2007 (in thousands)
- Table 10. Major public players involved in provision, control and financing of eLearning services
- Table 11. Major private players involved in the provision, control and financing of eLearning services
- Table 12. The sums designated for the supply of computer laboratories in schools, financed from the state budget in 1998–2004 (in millions of EUR and PLN)
- Table 13. The expected results/impacts of the Implementation of the Priority 2 of the Sectorial Operational Program *Human Resources Development 2004–2006*

## **16** TOWARDS BUILDING AN ELEARNING ENVIRONMENT IN POLAND

Table 14. The number of people participating in a particular course

Table 15. List of registered non-public programs supporting eLearning

Table 16. Non-Commercial and Commercial solutions

Table 17. List of major incentives and barriers in eLearning
